

Moms Across America Glyphosate Testing Project

Dear Participant of the Moms Across America Glyphosate Testing Project,

Our motto is "Empowered Moms, Healthy Kids." We are so glad that you are able to find out if there is glyphosate in your water, you, your family's or child's urine. We tried for over a year, and others have tried for much longer, to find out if glyphosate is connected to their children's health issues. For the first time in America, we can at least find out if it is in their bodies.

We have two intentions with this project.

One is to empower people to be able to care for their families and themselves by knowing if glyphosate is in their bodies.

The second is to make the results available to the public in the most impactful manner so that we may raise awareness and help as many people as possible to be empowered and healthy.

We ask for your cooperation in this process. We ask that you do not share your test results publicly, for instance on Facebook and other social media, news, radio or public officials, until we can publicize all the test results together. Sharing with your family is expected so you can take the steps necessary to care for your family. It is a free country and you can do as you wish, we just ask for the effectiveness of this project.

We have been advised that the media impact, public opinion and therefore possibility of impacting the regulators of glyphosate would be best reached by publicizing all the results together. We intend to do this as soon as is humanely possible, as soon as we have 20-30 results from individuals, we estimate with a month's time. We will have a larger, longer term study afterwards. Thank you for your participation in this process.

On the lab requisition we ask you to please sign to allow the lab permission to share your lab results (not connected with your name) and location with us for this purpose. We also ask to be able to contact you via email. We would like to be able to contact and share the group results with you, along with any support information. We will not share or use your email for any other purpose and your email will not be connected with your test results. Thank you again.

Very Gratefully,

Zen Honeycutt,
Founder, Moms Across America
